E-Bike Safety Conduct Contract

Introduction

This contract, dated [DATE], between

_____ [Teen's Name] and _____ [Adult's name] ensures the safe operation of an e-bike by said Teen.

By adhering to the agreements herein, [TEEN] is permitted to operate the specified e-bike. All parties agree this privilege is revocable, not a right, and non-compliance will lead to disciplinary actions, including potential suspension of e-bike privileges.

Notice: This document is an abridged (shortened) form of the complete, original contract. The complete contract can be read in our book *The Caring Parent's E-Bike Survival Guide*, available on Amazon. We're happy to provide the complete contract in printable format with proof of book purchase. You should see the book, which explains and includes the full version of this contract.

Safety Pledges

I, [TEEN], agree to the following pledges:

1. Accident Prevention and Safety Gear

- I will always wear my helmet with the chin-strap buckled securely when riding.
- I will use bike lights in low-light conditions and wear bright clothing to enhance visibility.
- I will not ride after dark without permission and proper lighting.
- I understand my parents may be financially and legally liable for any incidents, activities, or accidents involving my e-bike, which may not be covered by insurance.

2. Legal e-Bike Brand and Model

- I will collaborate with [PARENT] to choose a legal and safe e-bike brand, appropriate for my age and riding ability. I will avoid bikes with motors exceeding 750 watts.
- My e-bike's powered speed will not exceed 20 mph for Class 1 or 2, and 28 mph for Class 3 (if I am 16 or older). I will not alter the speed governor to increase speed.
- I will ride solo unless my e-bike is specifically designed for additional passengers. Long "banana" seats are illegal for multiple riders.
- I will not allow others to use my e-bike or ride another's without [PARENT]'s permission and adult supervision.

3. Obey Traffic Laws

- I will obey all traffic signals, signs, and road markings.
- I will ride on the correct side of the road or path and follow all cycling regulations.
- I will only ride in locations detailed and approved by [PARENT], including specifically designated streets, roads, paths, sidewalks, sites, garages, or parking lots. I will not trespass on private property.

4. No Stunts or Reckless Riding

- I will refrain from dangerous activities, such as speeding or stunts, on streets, sidewalks, paths, and other public or private areas. Such activities are allowed only with adult supervision at designated e-bike sports facilities.
- I will exercise caution near blind curves.
- I will adhere to legal speed limits and generally ride at lower speeds.

Consequences of Non-Compliance

I, [**TEEN**], understand that failure to adhere to safety pledges will result in:

- **Temporary Privilege Revocation:** My e-bike will be confiscated for two weeks, or [specified period], for minor breaches, as decided by [Parent's Name]. Continued infractions may prolong this period.
- **Permanent Removal:** A serious contract breach, as judged by Parent/Guardian will lead to the permanent confiscation and disposal of the e-bike after the first infraction.

Acknowledgment

I, [**TEEN**], commit to these guidelines for my safety and others while riding my e-bike, acknowledging the consequences of non-compliance.

Signed:
